COBRATF COURSES

* **Technical Emergency Response Training for CBRNE Incidents (32 hours)**

All-hazards training that features an overview of the terrorist threat, potential targets, and chemical, biological, radiological, and explosive hazards that may be used in all emergency incidents. Includes hands-on exercises in decontamination, mass casualty triage, survey and monitoring. Culminates in a training exercise at the COBRATF.

* **Hazardous Material Technician for CBRNE Incidents (24 hours)**

Provides hazardous materials technical training to include the composition, action, identification, and decontamination of agents, preservation of crime scene evidence, and techniques for operating in an all-hazards environment. Culminates in a training exercise at the COBRATF.

* **Hands-On Training for CBRNE Incidents (8 hours & 16 hours)**

Training is focused on personal protective equipment, survey and monitoring equipment, evidence collection and preservation, mass casualty triage, and explosive devices/searches. Culminates in a training exercise at the COBRATF.

* **Hazard Assessment and Response Management for CBRNE Incidents (24 hours)**

Provides advanced training for students to analyze a CBRNE incident to determine the potential magnitude, plan an initial response and implement their local IAP. Culminates in a training exercise at the COBRATF.

NON-COBRATF COURSES

* **Instructor Training Certification Course (40 hours)**

Provides the student with an overview of instruction on adult learning, task analysis, risk and hazard analysis, learning objectives and lesson plans, communication skills, instructional delivery and multimedia, testing and evaluations, and after action reviews (AAR).

* **Emergency Responder Hazardous Materials Technician for CBRNE Incidents (40 hours)**

Hands-on training in identifying hazardous materials, using advanced surveying and monitoring equipment, selecting and using the appropriate level of PPE and performing decontamination procedures.

* **Basic Agricultural Emergency Response Training for CBRNE Incidents (32 hours)**

Provides the agricultural and traditional emergency responder with an overview of agro terrorism and CBRNE hazards in the agricultural sector. Training culminates in a practical exercise involving a response to a hazardous event in an agricultural environment.

*COBRATF-The Chemical, Ordnance, Biological and Radiological Training Facility
CBRNE- Chemical, Biological, Radiological, Nuclear and Explosives.*

Respiratory Protection: Program Development and Administration (16 hours)

Provides core information necessary to develop, implement, administer, and sustain a respiratory protection program as defined in 29 CFR 1910. Includes hands-on exercises in performing qualitative and quantitative fit testing with respiratory protection devices.

Hazardous Materials Evidence Collection for CBRNE Incidents (16 hours)

Overview of the organization and functions of both the HMRT and the HMRTU; prepares a responder to respond to and document a crime scene and employ the FBI's 12-step evidence collection process.

Incident Complexities – Clinician Actions for CBRNE Incidents (8 hours)

Encompasses emergency medical related topics and advanced hands-on training with personal protective equipment, instrumentation and techniques, and procedures for emergency medical personnel involved in providing care to victims of a suspected CBRNE incident.

Incident Complexities – Responder Actions for CBRNE Incidents (8 hours)

Encompasses related topics and hands-on training with personal protective equipment, instrumentation and techniques, and procedures.

Crime Scene Management for CBRNE Incidents (8 hours)

Addresses phases and components of a CBRNE crime scene, legal issues and federal statutes, types of evidence, and steps for collecting evidence at a crime scene.

Law Enforcement Protective Measures for CBRNE Incidents (8 hours)

Presents related topics such as terrorist tactics and targeting, indicators of terrorism, and protective measures taken by law enforcement officers responding to a terrorist event.

Law Enforcement Response Actions for CBRNE Incidents (8 hours)

Hands-on training designed to provide law enforcement officers with CBRNE-specific response skills used in terrorist attacks.

ILERSBA (8 hours)

Prepares law enforcement officers to interdict and respond to an imminent suicide bombing attack.

Command and Response for All Hazards (8 hours)

Includes pre-incident planning and response plan development; domestic and international terrorism, CBRNE agents, and materials associated with a hazardous event.

Standardized Awareness Authorized Training Program (6 hours)

Provides emergency responders with awareness-level instruction about recognition, avoidance, isolation, and notification techniques in a suspected CBRNE event.

INCIDENT COMMAND COURSES

Incident Command: Capabilities, Planning and Response Actions for All Hazards (24 hours)

Training in incident management considerations, an IAP, pre-incident planning, threat analysis, target assessment and incident capabilities assessment. Culminates in a management level simulation exercise.

FIELD FORCE COURSES

Field Force Operations (24 hours)

Prepares law enforcement to successfully employ crowd control measures during civil disorders or a hazardous event.

Field Force Command and Planning (24 hours)

Prepares management-level personnel to serve as a member of an incident management team during a civil action or disorder.

Field Force Extrication Tactics (24 hours)

Provides emergency personnel with the knowledge, skills and tools necessary to extricate an individual safely from a protester device. Includes two days of field exercises.

INCIDENT COMMAND SYSTEM COURSES

Introduction to ICS (ICS-100) (4 hours)

ICS for Single Resources and Initial Action Incidents (ICS-200) (4 hours)

Intermediate ICS for Expanding Incidents (ICS 300) (18 hours)

Advanced ICS, Command and General Staff-Complex Incidents (ICS-400) (14 hours)

An Introduction to the National Incident Management System (NIMS), (IS-700) (4 hours)

TRAIN THE TRAINER COURSES

Incident Command System (ICS) Train-the-Trainer (TtT) Course (L-449) (32 hours)

Prepares participants to deliver EMI's ICS curricula. While ICS 100 and 200 courses are addressed, the major emphasis is on ICS 300 and 400.

Law Enforcement Protective Measures for CBRNE Incidents, Train-the-Trainer (16 hours)

Train-the-Trainer course on terrorist tactics and targeting, related hazards, indicators of terrorism, and protective measures when responding to a terrorist event. Prepares graduates to train the LEPM course in their home jurisdictions.

Standardized Awareness Authorized Training Program, Train-the-Trainer (12 hours)

Prepares graduates to provide instruction on suspected CBRNE events using the recognition, avoidance, isolation and notification (RAIN) technique.

***Hospital Emergency Response Training for Mass Casualty Incidents, Train-the-Trainer (8 hours)**

Prepares graduates to provide instruction to HERT members enabling the hospital to maintain a capable response team.

NOBLE TRAINING FACILITY COURSES

HEALTHCARE COURSES

*** Advanced Public Information Officer : Health and Hospital Emergencies (32 hours)**

Enables the application of public information skills to a major emergency or disaster situation for the healthcare provider.

*** Healthcare Leadership for All Hazards Incidents (32 hours)**

Exercise-based course taught in the nation's only hospital training facility and designed to assist healthcare professionals in generating appropriate decisions in response to a CBRNE event.

*** Hospital Emergency Response Training for Mass Casualty Incidents (24 hours)**

Prepares healthcare facilities and agencies to conduct a safe and effective emergency medical response to a mass casualty incident.

***Fundamentals of Healthcare Emergency Management (32 hours)**

Prepares healthcare personnel responsible for development, implementation, maintenance, and administration of emergency management programs and plans for healthcare facilities/systems.

*** Emergency Medical Operations for CBRNE Incidents (24 hours)**

Provides the emergency medical personnel with hands-on training in CBRNE incident management; field treatment of victims exposed to chemical hazards, biological agents, radiological hazards and explosions. Concludes in a multi-task, pre-hospital exercise.

*** Pandemic Planning and Preparedness (24 hours)**

Provides an overview of pandemic influenza, its challenges, and many facets of community planning that will enable a community to prepare and effectively respond to a pandemic influenza event. Culminates in a final exercise designed to prepare a fictitious community for pandemic influenza.

***Environmental Health Training in Emergency Response**

Course focus is on key environmental health topics, issues, and challenges faced during emergency response.

RADIOLOGICAL COURSES

*** Radiological Emergency Response Operations (32 hours)**

Performance-based course where the students learn to respond to, and manage, radiological operations.

*** Advanced Radiological Incident Operation (32 hours)**

Advanced-level course designed to refresh or improve skills of the radiological responder or manager. Focuses on response plans and procedures for complex incidents such as a terrorist event.

*** Radiological Series, Train-the-Trainer (TtT) (32 hours)**

Designed to qualify instructors to teach radiological courses; includes background information on the radiological protection system, the management plan for the Radiological Training Series courses.
